PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 2+ years of hands-on professional experience architecting, building, and maintaining scalable web applications, custom CMS platforms, and RESTful APIs. Proficient in PHP (Laravel, CodeIgniter 4), modern JavaScript (React.js, Next.js, ES6+), and relational databases (MySQL, PostgreSQL). Proven expertise in integrating secure payment gateways (PhonePe, Razorpay), building dynamic admin dashboards, and implementing responsive UI/UX designs.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap 5, Tailwind CSS, jQuery
- **Backend & Frameworks:** Laravel (MVC), CodeIgniter 4 (MVC), PHP, Node.js, Express.js, RESTful API Development
- **Databases:** MySQL, PostgreSQL, Redis
- **Integrations & Payment Gateways:** PhonePe Payment Gateway, Razorpay, Google Maps API, Third-Party REST APIs
- **Tools & Deployment:** Git, GitHub, Postman, Vercel, cPanel, Apache, FilePond, AJAX

PROFESSIONAL EXPERIENCE

Gharuda Infotech Pvt Ltd | Full Stack Web Developer

Chennai, India | April 2024 – Present

- Architected and maintained scalable full-stack web platforms using CodeIgniter 4 (MVC), Laravel, and React.js.
- Developed and consumed secure RESTful APIs enabling seamless, real-time communication between React.js frontend interfaces and backend services.
- Integrated enterprise payment solutions including PhonePe and Razorpay for e-commerce checkouts and subscription workflows.
- Built dynamic administrative dashboards and CMS modules with role-based access control, AJAX-based asynchronous form submissions, and FilePond media upload management.
- Hardened application security by enforcing CSRF token validation, input sanitization, secure session handling, and SQL injection prevention.
- Managed end-to-end deployment pipelines on shared and VPS environments via cPanel, including scheduled database backups and maintenance.

Why Global Services | Full Stack Developer Intern

Chennai, India | August 2023 – February 2024

- Developed responsive full-stack features using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Collaborated in agile sprint cycles, participating in daily standups, code reviews, and Git version control workflows.

KEY PROJECTS

Innorax CMS — Dynamic Content Management System

Tech Stack: Laravel (MVC), MySQL, Blade / React.js, Bootstrap 5, RESTful APIs

- Engineered a modular Content Management System featuring customizable page layouts, dynamic navigation builders, and slider banner management.
- Implemented robust Role-Based Access Control (RBAC) middleware for multi-tier admin and editor user roles.
- Designed media library management system with image optimization and secure server-side file validation.
- Built optimized Eloquent ORM queries and database indexing, speeding up query response times by 30%.

Goolok — Real Estate Listing Platform

Tech Stack: React.js, CodeIgniter 4, RESTful APIs, MySQL, Google Maps API

- Built a modern real estate platform featuring dynamic property search, faceted filtering, and agent inquiry forms.
- Integrated Google Maps API using latitude/longitude mapping to provide an interactive geospatial property discovery experience.
- Decoupled frontend presentation with React.js while servicing data via lightweight CodeIgniter 4 REST endpoints.

TTS Brothers — E-Commerce Web Application

Tech Stack: React.js, Node.js, Express.js, RESTful APIs, MySQL, Razorpay Gateway

- Developed an end-to-end e-commerce web platform featuring dynamic product catalog, intuitive cart management, and real-time order status tracking.
- Built scalable backend REST APIs using Node.js and Express.js to handle secure checkout and customer transactions.
- Implemented Razorpay payment gateway integration with webhook handlers for real-time transaction verification.

Sai GK Matrimony — Matchmaking & Subscription Platform

Tech Stack: CodeIgniter 4, PhonePe Gateway, MySQL, jQuery, AJAX

- Delivered user registration, partner profile matching algorithms, and automated subscription tier management.
- Integrated PhonePe payment gateway for secure transaction processing and renewal workflows.

EDUCATION

- **Bachelor of Engineering (B.E.) in Electrical & Electronics Engineering (EEE)** — Mailam Engineering College, Tamil Nadu, India (Graduated: April 2022)

CERTIFICATIONS

- **Full Stack Web Developer Certification** — Besant Technologies (August 2022 – January 2023)
